Re: Second Submittal, Permit and Disturbed Area, Canyon Fuel Company, LLC, SUFCO
 Mine M&RP ACT/041/002-AM01A

Dear Permit Supervisor:

The enclosed copies of materials are being submitted to update the Permit and Disturbed Area amendment submitted on February 12, 2001. Attached are DOGM forms C-1 and C-2 and appropriate pages and Plate 5-6 and Map 2, Volume 3 for modification of the Permit and Disturbed Area Amendment to the MRP.

These pages 5-68 and 5-68A, Plate 5-6 and Map 2, Volume 3 have been revised to address the deficiencies in the Division letter dated March 27, 2001, and need to replace the pages in the original submittal.

The deficiencies and responses to the Permit and Disturbed Area are:

1. **R645-301-121.200 and R645-301-521.163**

- ♦ The permittee must either include the utility corridor that connects the water tank area with the main mine site or show why the utility corridor is excluded from being in a disturbed area. See the analysis section for reasons why the utility corridor could be excluded from being in a disturbed area.

Response: *The water and sewer lines were installed and buried prior to Aug. 3, 1977 under a Special Use Permit with the Forest Service and will be left in place upon completion of mining activities. Wording has been added in the Reclamation Plan Section 5.4.2.2. on page 5-68 of Chapter 5 in the MRP to help explain and clarify this in the MRP.*

2. **R645-301-521.190**

- ♦ The permittee must show the location of the waste rock site on Plate 5-6 in terms of township, range and section, and State Plane Coordinates.

Response: *The location of the waste rock site was shown on Plate 5-6 in terms of township, range and section, and State Plane Coordinates on the left side of the Plate 5-6. The waste rock site is located on the edge of the topographic contours shown on the map. For clarification the grid lines have been extended out on Section 18 T22S R4E where the waste rock site is located. The contour lines and road for the waste rock site don't match up completely with the contours on Plate 5-6 because the waste rock site contours are from an aerial flight and the rest of the contours on Plate 5-6 are from quad topo maps.*

3. **R645-301-521**

- ♦ The permittee must show the location of the waste rock site on Map 2 of Chapter 3 in terms of township, range and section, and State Plane Coordinates.

Response: *Map 2 of Chapter 3 has been modified and updated to note the location of the waste rock site in terms of township, range and section. The location in terms of State Plane Coordinates is shown on our Permit Area Map Plate 5-6.*

The enclosed CD-ROM includes the updated AutoCAD files for Plate 5-6 and Map 2 of Chapter 3.

If you have any questions or need additional information, please contact Mike Davis at (435) 286-4421.

Sincerely,
CANYON FUEL COMPANY, LLC

ASSIGNED TRACKING NUMBER

Second Submittal - AM01A - M&RP Permit and Disturbed Area Clarification.

Mine: SUFCO MINE

Provide a detailed listing of all changes to the mining and reclamation plan which will be required as a result of this proposed permit application. Individually list all maps and drawings which are to be added, replaced, or removed from the plan. Include changes of the table of contents, section of the plan, pages, or other information as needed to specifically locate, identify and revise the existing mining and reclamation plan. **Include page, section and drawing numbers as part of the description.**

Any other specific or special instructions required for insertion of this proposal into the Mining and Reclamation Plan?
